

Supporting Student Mobility is impossible if we don't recognize our students

Mattias Holmlund
ITS, Umeå Universitet

NORDUnet 20–21 september 2016

Who am I ?

- Mattias Holmlund
 - 10 years as operation manager for Swedish SIS - Ladok
 - 5 years as project managing various national projects, for now in 2 EU projects EMREX and EWP
 - But foremost ... no expert on affiliations, federations and identity management whatsoever...

This presentation will...

- Define student mobility
- Introduce two ongoing EU projects
- Show two major problems within student mobility

- try to get you to collaborate on getting it clarified and fixed 😊

First - Student mobility?

Definition

Student mobility is any opportunity for students to work or study abroad whilst undertaking their degree programme – whether undergraduate or postgraduate.

Student Mobility can be both incoming and outgoing in the form of [Bilateral Exchange](#) or one-way [Study Abroad](#). The University of Glasgow has Bilateral Exchange Agreements in place for sending its outgoing students to partner institutions in Europe (via Erasmus) and non European countries (International Exchange Programme).

Study Abroad programmes are one-way (incoming only) fee paying programmes for either one semester or one academic year.

University of Glasgow - Definition of Student Mobility

Ongoing projects

Emrex

EMREX is the solution for electronic transfer of student records between higher education institutions, HEIs in Europe.

Erasmus Without Paper - EWP

The EWP-project aims to create a network supporting electronic exchange of exchange student data and documents by interlinking HEI's and their SIS

For more information and project partners see: www.emrex.eu and www.erasmuswithoutpapers.eu

2 major problems

Expiry of student account.

National personal identifier.

Status on accounts in the nordic countries!

- Sweden
 - From 10 weeks to 7 years. Many converted to Alumni accounts
- Finland
 - Mainly related to study rights in HAKA, ends 31/7 or 31/12 after last semester
- Norway
 - In some cases the same day as the exam, up to 6 month
- Denmark

Authentication versus authorization

- - When are students students?
- Expired and closed student accounts - Both a national as a mobility problem.

National personal identifiers.

- Foreign students gets an interim or temporary identifier connected to the achieved results.
- Works for manual administration but not for interlinked systems
- What is your status on eID and EIDAS implementation?

Solution and how to collaborate?

- We all need each others help on collaboration and progression
- Collaboration within NORDUnet?

A hand is shown holding a white speech bubble against a solid blue background. The speech bubble has a tail pointing towards the bottom right. Inside the bubble, the word "Questions?" is written in a bold, black, sans-serif font. The text is centered within a light yellow rectangular highlight.

Questions?
