# Business case and success criteria – feedback and discussion

Ebba Ehlers, 27 October 2015

ERASMUS+

# EMREX Project - Benefits

- Significantly increases the availability, quality and recognition of degrees and credits
- Reduces risk of overlapping studies
- Diminishes risk of forged transcripts and/or certificates
- Reduces administrative workload, saving time and money
- Promotes student mobility
- Increases student mobility and crediting (National/European Mobility targets)
- Enables automatic recognition of studies
- Provides reliable and aggregated data (Mobility statistics)

# Will EMREX provide?

ERASMUS+

- easier and faster administration of recognition
- less paper
- higher recognition rate of studies abroad
- increased reliability of information about student records/less forgery
- more transparent/easier mobility processes for the students
- better service for the mobile student

# Will EMREX provide?

ERASMUS+

- increased availability of information about student records
- increased quality of information about student records
- money savings for the institutions

**Will more students study abroad?**

ERASMUS+

# Questions to you

In your opinion:

- Do you find all the benefits realistic? If not why?
- Which benefits are the most important?
- Can you provide suggestions for project improvements?

ERASMUS+

- Group discussions (20 - 25 min)
- Short presentation from each group (3 - 4 min)
