

EMREX is the solution for electronic transfer of achievement records between higher education institutions in Europe - and beyond! After a successful field trial the network is ready to roll-on, and new partners are getting ready to join.

Come and see what EMREX can be used for, how it is connected to Erasmus and EU, and how it will be organized in the years to come.

In this seminar at the University of Bologna we will discuss the future of student mobility and show you, why you should join this important and inevitable network.

Please note, that the night before we will organize a citywalk in the beautiful old city centre of Bologna for everyone interested.

Full partners:

Uddannelses- og
Forskningsministeriet

Swedish Council for
Higher Education

ERASMUS+

Invitation
to the

EMREX Unleashed!

Seminar

30. November 2017

Bologna, Italy

*Come and hear about the
future of student mobility
and free flowing student
data*

Presented by the
EMREX Project

www.emrex.eu

Why and how to participate?

- ▶ EMREX is supporting student mobility, and it works - come and see how to join.
- ▶ See the results from the field trial and hear about the lessons learned.
- ▶ Learn about the future organization of EMREX and the future possibilities EMREX has to offer.
- ▶ Get valuable contacts
- ▶ The seminar is free of charge, but participants are expected to cover their own travelling and accommodation expenses.
- ▶ Come and hear about the future of student mobility and free flowing student data. Sign up here before October 15 2017:
