Agenda

2021-11-18

About the presentations

Developing HEI/EDU Applications and Platforms

Overview about ongoing developments for HEI/EDU Applications and Platforms with Security and Standards, like EMREX and eIDAS.

HISinOne

For more than 50 years HIS supports German universities to accompany the student life cycle from application to graduation with sophisticated software systems. HISinOne is the leading HIS product, supporting the core processes of campus and research management. With the next release, HISinOne will be able to function as both EMREX-Client/SMP and EMREX-NCP. This will enable many universities throughout Germany to participate in the EMREX network. The presentation gives a short introduction to HIS and HISinOne and a showcase of our implementation of EMREX.

Practical information

Travel information

Göttingen can be accessed by airports like Frankfurt and Hannover and then a 2 hour train ride. The meeting takes place at the Meetinghouse "Alte Mensa" am Wilhelmsplatz 2, Göttingen.

Hotel reservations can be made at the Hotel Central <https://www.hotel-central.com/home.html>.
